

We asked our senior pupils
why they thought pupils should
learn a language.

This is what they said...

“a language looks good on your
CV”

“language skills make you stand
out”

“a language will always be useful”

“there are more job opportunities if
you can speak another language”

“languages make you more
employable”

“languages make you a better communicator”

“languages help you to travel”

“learning a language keeps your brain healthy”

“you can study, work or visit other countries”

“languages build your self-confidence”

“if you have learned one language, you can learn another one more easily”

“being able to speak another language is really rewarding”
